

H-1 (EB) Improvements/Widening Ola Lane to Likelike Highway Off-Ramp

January 2026 UPDATE

Recap on Project Intent

- Add inside and outside shoulders, increase lane width to 11'
 - Eliminate 'Middle Street Merge'
 - Construct new retaining walls

Gulick Avenue Overpass

- Lengthen existing bridge and move abutments on the WB and EB sides about 15.5' each

**Road
Closures
Ahead**

36-inch Waterline Completion

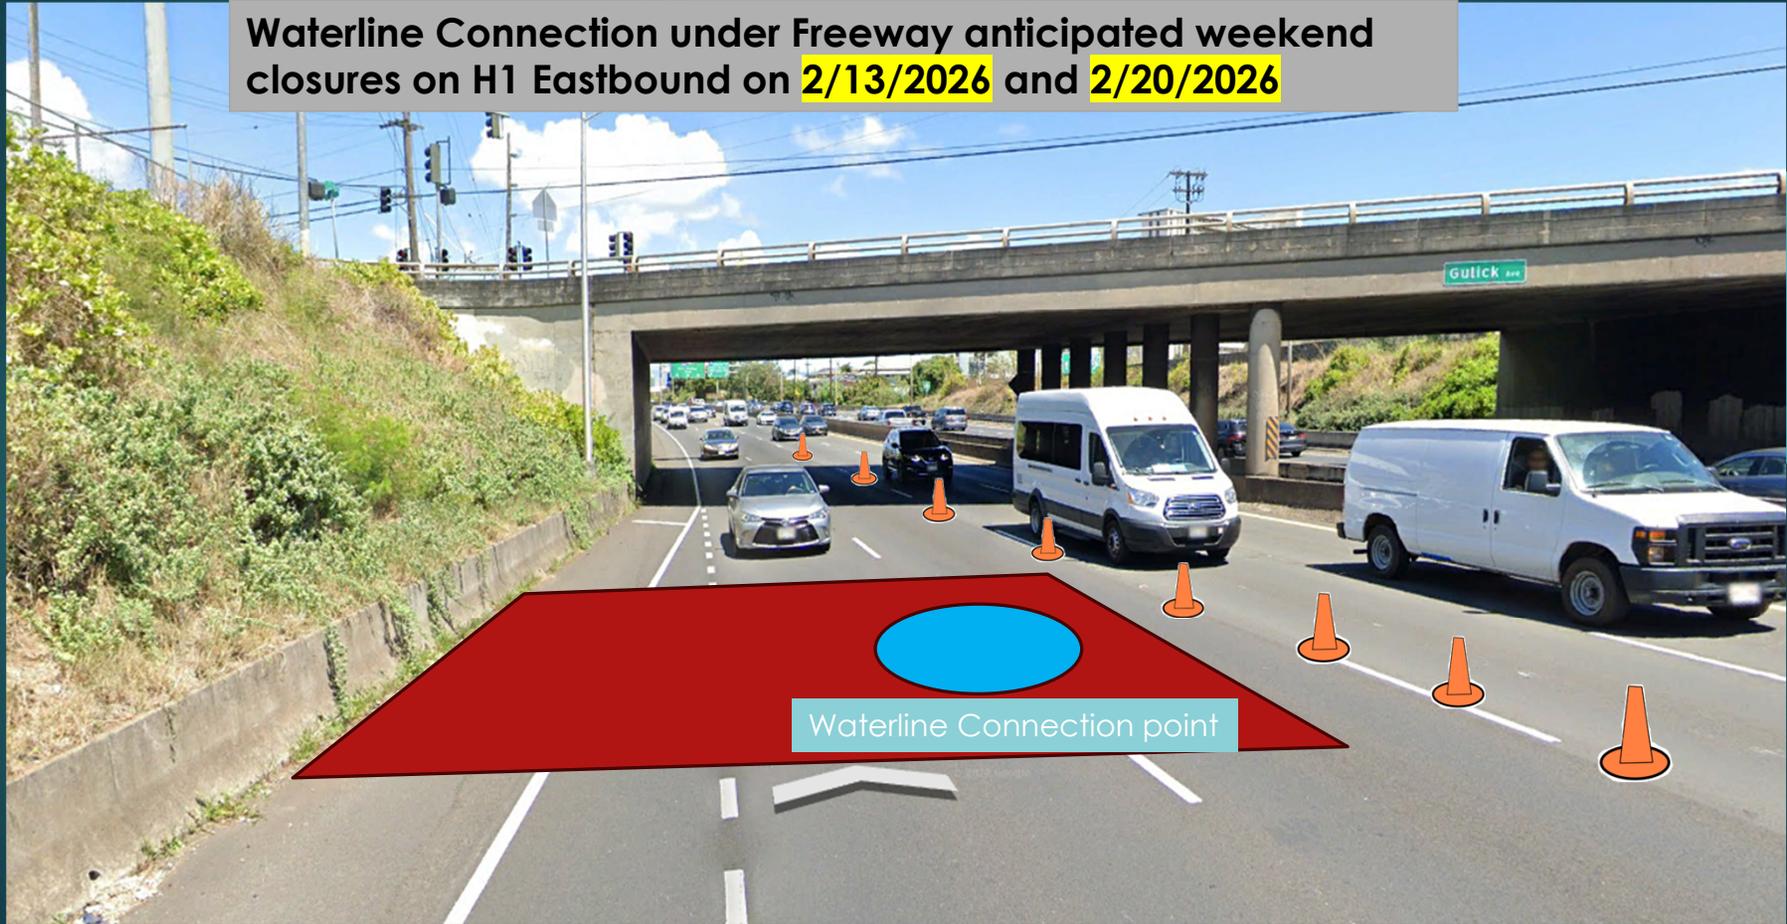

Waterline Connection under Freeway anticipated weekend closures on H1 Eastbound on **2/13/2026** and **2/20/2026**

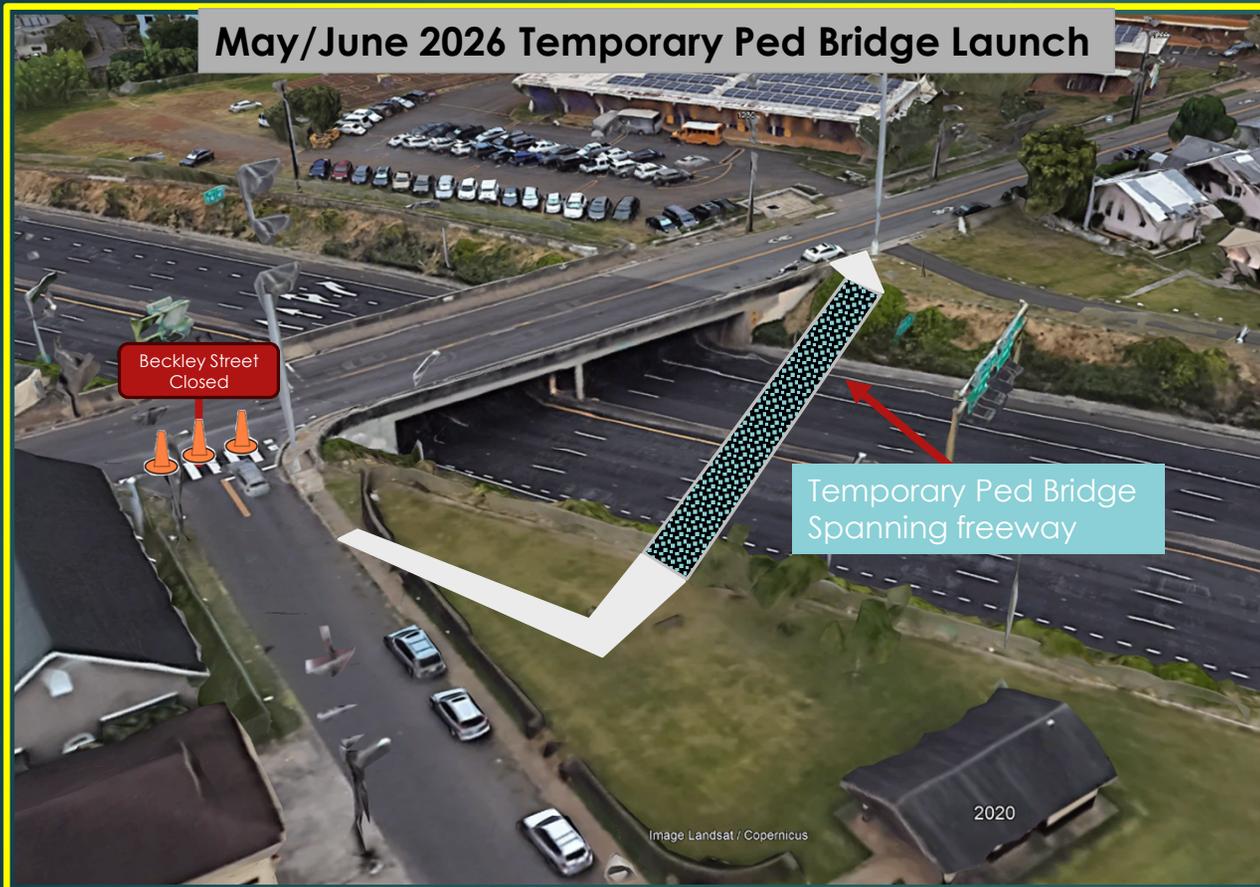

- We will need to close the two Eastbound lanes on H1 over two consecutive weekends to complete connection at location shown. Closures will last Friday nights through Sunday nights, reopened Monday Mornings.

36-inch Waterline Tie-In Location

Waterline Connection under Freeway anticipated weekend closures on H1 Eastbound on **2/13/2026** and **2/20/2026**
